Department Mission

The mission of Social Services is to enable community members and their families to support themselves; and to provide care and protection for all populations, as needed.

Department Services Provided

Social Services provides a number of critical services to the community. These services range from protecting children and adults, behavioral health services, to food and nutrition programming. In addition, Social Services has collaborated with UCPS to provide students with access to social workers and therapists.

Department FY 2020 Discussion

As the population of Union County continues to grow, an increasing number of people require services. Adult Services Programs, including Economic Services, continue to see an increase in customers as baby boomers age and become eligible for assistance. Training continues to be a focus to address the Chang regulations including the Social Services Reform and Child Welfare Reform, NC Fast database incorporation for Child Welfare & Program Integrity, Medicaid Transformation, and the increasing demands of the day-to-day operations. Quality assurance is needed due to the recoupment of Medicaid over payments that will be charged to counties this fiscal year.

As the service demands are increasing, the complexity of the funding structure continues to grow. Continual monitoring and management of the various resources and reimbursements insures that the County recovers as much of the cost as possible. The administrative burden is balanced with the need to provide quality customer service.

FY 2020 will be the second year of the UCPS Collaborative, which is a partnership between County Social Services and the Union County Public Schools (UCPS) to provide social workers, behavioral health therapists in County schools to serve as a support system for youth in distress.

Department Analysis

FY 2020 adopted budget includes \$437,250 to fund the second year addition of staffing to the UCPS Collaborative effort, including ten Behavioral Health Therapists, five Senior Social Workers, and a Behavioral Health Therapist Supervisor. The budget also includes an additional \$46,562 to fund the conversion of fourteen long-term contract employees to regular county FTE's status. Also, as part of the annual budget process, the department submitted a two percent, \$533,721 total expense reduction.
