Mission

The mission of Public Works is to ensure the delivery of a safe and reliable water supply to the residents and businesses of Union County; to protect and enhance the water quality of the streams and creeks within Union County by meeting or exceeding the wastewater treatment and stormwater management regulatory requirements; to assure that adequate water, wastewater and solid waste management facilities are in place and properly maintained to meet the current and projected needs of our customers; to provide professional and courteous service to all our customers at affordable rates; to plan, build, operate and maintain County facilities that serve the needs of our employees and citizens in a safe and efficient manner that maximizes their useful life and provides a productive environment for employees and the public; to provide Solid Waste infrastructure and programs that support residential, commercial/industrial and agricultural needs while meeting federal and State regulations and providing our customer base with acceptable levels of service.

Service Summary

Public Works consists of the following primary functions:

• Water and Wastewater

- o Provide safe and high-quality drinking water that meets state, federal, and operating requirements.
- Provide an adequate supply of water at sufficient pressure through the efficient operation and maintenance of the water pumping system and pump stations.
- o Provide reliable and cost-effective collection, treatment, and recycling of wastewater conforming to state and federal regulations.
- Provide response to customer service requests; ensure accurate metering of delivered water, and timely repair or replacement of malfunctioning meters.
- o Provide billing to utility customers for collection of revenues.
- Educate the public concerning water conservation, water-wise landscaping, and wastewater recycling.
- o Provide engineered, water resource planning to manage and protect water resources and infrastructure.
- o Review, approve, and inspect all new developer contributed infrastructure to assure conformance with County standards and master plan.

Perform predictive, preventative, and emergency maintenance of water lines, sewer lines, lift stations, man holes, and fire hydrants.

Solid Waste

- o Operate a Construction and Demolition Landfill.
- o Provide MSW Transportation and Disposal.
- o Provide Scrap Tire and White Goods Recycling.
- Provide six convenience site locations for residents to dispose of household waste and recycling.
- o Provide volume reduction services for pallets and yard debris.
- Educate the residents within the County of solid waste disposal and recycling.
- o Provide recycling and household hazardous waste collection services.

• Facilities Management

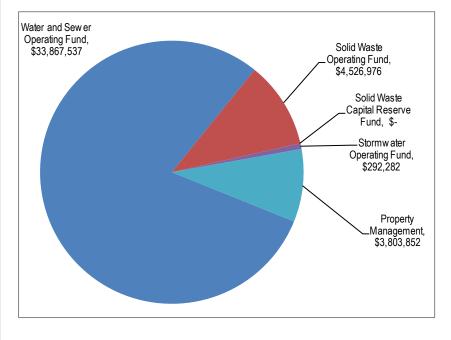

- Responsible for managing the planning, design and construction of capital projects for the development of County facilities (such as library, parks, human services facilities, detention).
- Provide property management, tenant services, maintenance and housekeeping to County departments located within the buildings they occupy.
- Responsible for the design, maintenance and support of surveillance and access control systems for County properties.
- Provide signage for general directional purposes for the general public by repairing and/or replacing missing, damaged or illegible road signs and erecting new signs in new subdivisions.
- $\circ\quad$ Provide ADA and directional signage for County facilities.
- Generates Revenues through Internal Service Funds generated by accumulation and allocation of costs internally among divisions or Service Areas.

• Water and Land Resources Management

- Coordinate and update the County's Water and Wastewater Master Plan.
- Manage and implement the County's Water Conservation and Water Shortage Response plans.
- o Review and approve developers' stormwater and flood management plans ensuring proper planning, reducing the risk of flooding, and ensuring compliance.

| Public Works Divisions | FY 2015 Adopted | Percent |
|----------------------------------|--------------------|---------|
| | | |
| Water and Sewer Operating Fund | \$ 33,867,537 | 79.7% |
| Solid Waste Operating Fund | 4,526,976 | 10.7% |
| Solid Waste Capital Reserve Fund | - | 0.0% |
| Stormwater Operating Fund | 292,282 | 0.7% |
| Property Management | 3,803,852 | 9.0% |
| Total Division Expenditures | \$ 42,490,647 | 100.0% |

FY 2014-2015 Opportunities

• Water & Wastewater

- Declining water usage in the past years has created opportunities for more efficient operations to stay within the fiscal constraints of affordable rates.
- Rebound in the housing market could significantly increase revenue from capacity fees, but also accelerate need for capacity expansion.

 Continued expansion of the use of GIS in concert with new efforts in asset management system is anticipated to enhance system reliability and extend asset life.

Solid Waste

- The open competitive market with the private sector for the receipt of MSW creates a significant challenge for the MSW Transfer Station operation to maintain and grow its market share.
- Opportunities exist to partner with our more urban municipalities on solid waste and recycling collection programs to improve service to our citizen.

• Facilities Management

 Alternative project delivery creates opportunities to fast-track the delivery of the new Human Services building.

Engineering

- Meeting future water and wastewater capacity needs is contingent on the timely execution of our Capital Improvement Program.
- Completing permitting for the expansion of the 12 Mile Creek WWTP and the new reservoir at the Catawba River Water Treatment plant.

Water & Land Resources Management

 Execution of interlocal agreement with Town of Norwood will allow Union County to move forward with preliminary design and permitting of new Yadkin River water supply.

Goals and Objectives

• Water and Wastewater

- Engineering: to ensure timely implementation of water and sewer CIP to meet projected service demands; to assure that new developer contributed infrastructure is in conformance with our standards and master plan objectives.
- Operations: to safely and efficiently operate and maintain our current infrastructure to reliably meet performance and regulatory standards while maximizing useful life of our assets and facilities; to meet and/or exceed local, state and federal regulations for potable water and wastewater discharge.

 Business Operations: to maintain affordable, equitable water and sewer rates; to provide professional and courteous service to all our customers.

Solid Waste

- Collection: Provide collection sites for the convenient receipt of solid waste and recyclable materials from the residents of unincorporated Union County.
- o **Disposal:** Provide facilities for the disposal of MSW and C&D from industrial, commercial, residential, and collection programs.
- o **Recycling:** to expand and enhance our recycling programs to achieve North Carolina objectives for waste reduction and reuse.

• Facilities Management

 To plan, build, operate and maintain County facilities that serve the needs of our employees and citizens in a safe and efficient manner that maximizes their useful life and provides a productive environment for employees and the public.

• Water & Land Resource Management

- Update the Water Conservation Ordinance and develop a more comprehensive Water Conservation Program & Water Shortage Response Plan.
- o To timely review and resolve developer improvements impacting stormwater and/or floodplain management.

Rate Increases

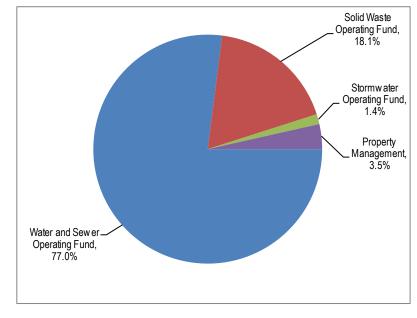

The Adopted Three Year Rate Ordinance includes a 6.5 percent increase for water and wastewater charges for service for FY 2015. The rate increase will take effect in July 2014.

Personnel Summary

- Three new positions are for the Water and Sewer Operating Fund: a CIP Project Manager, a Utility Compliance Administrator and an Engineering Assistant.
- In the Water and Sewer Fund, a vacant Administrative Assistant position is being reclassified to a Customer Service Manager and an Engineering Technician position is being reclassified to an Engineering Assistant.
- A General Utility Worker position is for the Solid Waste Operating Fund.

Revenue Highlights

Water and Wastewater

- The FY 2015 adopted budget assumes a 6.5 percent increase in rate revenue from both water and wastewater services.
- PayGo capital and debt service for capital are the largest drivers of the
 water and wastewater operating budget. Debt funding, paid primarily
 by future users of the system, is used to fund expansion and long-term
 improvements to the system. PayGo funding is used for renewal and
 replacement of existing infrastructure. Current users carry these costs.
- The current rates for residential and irrigation water use is a tiered structure designed to encourage water conservation. Customers who irrigate regularly will pay considerably more for water each month than the "average" user. In years past, the top two tiers (those with the highest rates per thousand gallons) generated nearly 40 percent of all water revenues. For the past two years there has been a considerable decrease in demand in these two tiers. Year-end projections indicate that only 20 percent of water revenue will come from these two tiers in FY 2014. This decrease in demand can be attributed to the economic impact of the conservation rate structure and also the fact that the spring and summer months were abnormally wet for Union County. A drier summer is expected for FY 2015, so some rebound in demand within the top tiers is anticipated; however, it is highly unlikely that these top tiers will generate 40 percent of revenues again in the near future.
- In an effort to add more stability to the utilities' revenues, a small increase in monthly base charges is recommended in FY2015 for both water and wastewater (\$1.30 and \$0.60, respectively for water and sewer for the typical single-family residential household). A 6.5 percent increase in volumetric charges for wastewater services is also recommended (\$0.30/1,000 gallon for the typical single-family residential household). Volumetric charges for water will remain the same in FY2015.
- The development of the FY 2015 budget anticipates the adoption of a new 3-year rate ordinance, which is expected to reflect rate revenue increases of 6.5 percent per year for each of the next three fiscal years (FY 2015-FY 2017). These moderate rate increases will help facilitate the current operating and long-term capital plan needs. Also, the adoption of this 3-year rate ordinance (second consecutive) will be viewed

favorably by rating agencies and may result in lower costs related to debt issuances.

Solid Waste

- There are no changes to the Solid Waste rate structure requested for FY 2015. Rates implemented in FY 2014 are expected to generate sufficient revenues for FY 2015.
- Municipal Solid Waste (MSW) revenue was much less predictable in FY 2014 than in years past. Major haulers went out of business or changed ownership creating instability in the marketplace, which resulted in upswings, and downturns in solid waste revenue throughout FY 2014. We expect the marketplace and revenues to normalize in the coming year. The FY 2015 budget assumes approximately 6,450 tons per month of municipal solid waste disposal as compared to the FY 2014 estimate of 5,600 tons per month.
- Revenue from the County's six convenience sites are anticipated to exceed the FY 2014 budget, although volume of waste disposed appears to be lower than projected. Unlike revenues collected at the MSW transfer station, convenience site revenues are collected based upon the size of each garbage bag, rather than its weight. There can be significant variability in the weight of refuse contained in a bag of any size. While total volume (tonnage) of refuse collected at the convenience sites is consistent year to year, it is difficult to predict the amount of revenue that volume will generate due to the variability in weight per bag.

Water and Land Resources Management

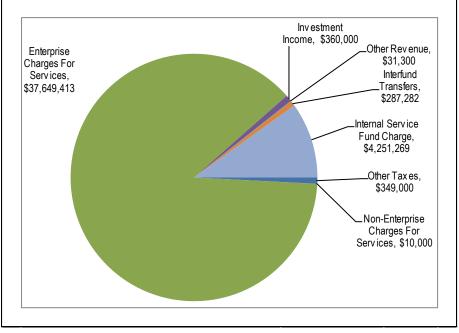

• The FY 2015 revenues for Water and Land Resources included fees to cover the cost of reviews for major and commercial development, floodplain reviews, and final plat reviews.

Facilities Management

• The FY 2015 revenues will come from internal service fund charges for the allocation of services provided to other internal divisions.

| | | FY 2015 | | |
|-------------------------------------|----|------------|--------|--|

| Total Revenue | \$ | 42,938,264 | 100.0% | |

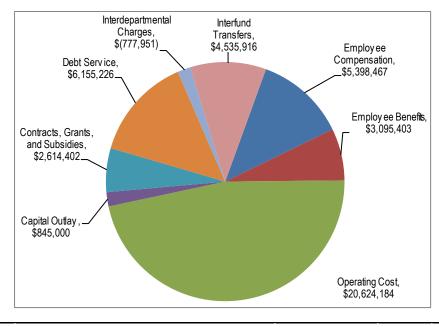

Expenditure Highlights

- Compensation for employees is decreasing by 5.20 percent or \$295,887, from \$5,694,354 to \$5,398,467 for FY 2015. This net decrease is comprised of \$492,635 increase for additional 4.00 FTE's, net of a \$788,522 decline due to the agreement between Charlotte-Mecklenburg Utility Department (CMUD) and Union County Public Works. This agreement will move 16 FTE from the County to CMUD as of June 1, 2014.
- Benefits for employees are increasing by 1.92 percent or \$58,239, from \$3,037,164 to \$3,095,403 for FY 2015. This net increase is comprised of \$485,686 for additional 5.00 FTE's and benefit cost increases, net of \$427,447 decline for the agreement between CMUD and the County.
- Operating costs are increasing by 21.70 percent or \$3,677,871, from \$16,946,203 to \$20,624,184 for FY 2015. This net increase is comprised of an increase of \$3,677,981 due primarily to the Facility Management Division becoming an internal service fund and the associated interdepartmental charge that previously mitigated the Facility Management costs will be internal service fund charges in FY 2015, net of \$585,996 decline for the agreement between CMUD and the County.
- Capital outlay expenditures are decreasing by 61.58 percent from \$2,199,149 to \$845,000 for FY 2015. This is a result of certain one-time or large charges for the Solid Waste building, vehicles and equipment.
- Contracts, grants, and subsidies are increasing by \$2.3 million, from \$295,092 to \$2,614,402 in FY 2015. Of this increase, \$2,227,402 is due to the agreement with the City of Charlotte dba Charlotte Mecklenburg Utility District (CMUD) who will be operating and maintaining the County's Wastewater Treatment Plants. This increase is offset by declines in compensation and operating costs as noted above.
- Debt service requirements are decreasing by 7.19 percent from \$6,632,374 to \$6,155,226 for FY 2015 due to historical reductions in service fees, reductions in principal on which interest in calculated, and reductions in swap payments as a result of reduced principal.
- Interfund transfers are decreasing by 17.51 percent or \$962,699, from \$5,498,615 to \$4,535,916 in FY 2015. The FY 2015 amount is comprised of a \$4,248,634 transfer to the Water and Sewer Capital Fund for pay-go projects and \$287,282 to the Stormwater Operating

Fund for its operations, which are not covered completely by the revenue generated via Stormwater fees.
