

## EXAMPLE OF A SEPTIC SITE PLAN

Property Owner: John Doe  
Road Name: John Street  
Subdivision: Union Woods Lot # 24

 = Pink Flag used to designate Septic Drainfield Area

**Instructions:** Use the above diagram as an example for completing a Site Plan for a Construction Authorization Permit Application:

Obtain a plat or draw an outline of your lot, including the measurements for each side of the lot.

Draw In:

1. House (include measurements of at least two sides)
2. Driveway
3. Road & Road Name property is located on
4. Septic Site ( pink flags) as determined by Union County Environmental Health – measure the distance from each pink flag and record on plat.
5. Show distance from house to property lines (on at least two property lines).
6. Show distance from property lines to septic drainfield area (from property lines to pink flags)
7. Show distance from house to drainfield area.
8. Show any easements or other existing or proposed structures on property (garage, outbuilding, etc)
9. Show any existing wells, ponds, lakes, creeks, etc....

**Should an individual well be needed on property, a separate site plan, application, and fee will be required.**
